ARAF AL-JAMI

arafaljami1331@gmail.com ⋄ araf.aljami.me

SKILLS

Languages: C/C++, Javascript, Typescript, C#, Java
Frameworks/Tools: Git, AngularJS, Angular, ASP.NET Core, MongoDB, RabbitMQ

EXPERIENCE

SELISE rockin' software, Dhaka Nov 2018 - Present
Software Engineer

· Single Page Web Application development using Angular, AngularJS
· Adaptive/Responsive layout development
· REST API integration
· REST API development using C#/ASP.NET Core, RabbitMQ, MongoDB

EDUCATION

Leading University, Sylhet *September 2014 - April 2019*
Bachelor of Science in Computer Science and Engineering

Courses: Data Structures, Discrete Mathematics, Computer Algorithms and Complexity Analysis, Compiler Design and Construction, Computer Architecture and Design, Computer Graphics, Database Management System

AWARDS & ACHIEVEMENTS

Onsite Competitive Programming Contests *September 2014 - Present*

· 10th place (4th place University wise) out of **150** teams, at IUBAT ACM NCPC 2018. [link]
· 16th place (8th place University wise) out of **120** teams, at MIST IUPC 2019

Online Competitive Programming Contests *September 2014 - Present*

· Active participant in online coding challenges on sites such as **TopCoder**, **Codeforces**.
· Achieved Maximum Rating of **1982 (top 4%)** in **Codeforces**. **Handle: CLown1331**. [link]
· Achieved Maximum Rating of **1386** in **TopCoder**. **Handle: CLown1331**. [link]
· Solved around 2500 problems in various online judges.

PROJECTS

PROJECT RENEGADE
A FPS Game for Android. Written Using C# and Unity Game engine. [link]

Chip8
A chip8 emulator written using C++, SFML.

ADDITIONAL

Problem Setting *September 2014 - Present*

· Set problems for Intra and Inter University Programming Contests. [link]

Programming Workshop Coordinator March 2018 - December 2018
Leading University, Sylhet

· Arranged and taken workshop on programming and problem solving.
